Product Name	Description	Production Standard	Class type	APPEARANCE
<u>Pigs</u>	<p>*Manufacture of metal body pigs, -Cleaning Pigs (Brush & Magnet), -Batching Pigs, -Gauging Pigs, -Bi-Directional Pigs and ...</p> <p>*Specific Pigs suitable for specific needs conditions, including: -Docking Pigs, -Super Seal Pigs, -Poly Pigs (all polyurethanes), -Combined Pigs, -Double or multi-sized Pigs.</p> <p>* Spherical pigs</p> <p>* Types of Foam Pigs, including: -Uncoated, -Full Coated, -Cross-Linked, -Brushed, etc.</p>	IPS-M-PI-0170	Not included	
<u>Spert Parts</u>	<p>-Disks: Seal Disks in other dimensions and hardness Guide Disks in other dimensions and hardness Spacer Disks in other dimensions and hardness</p> <p>-Caps in other dimensions and difficulties</p> <p>-Types of metal, polyurethane and polyamide spacers with other hardnesses</p> <p>-Brushes in different Types, including: rotary, base, spring and etc.</p> <p>-Types of magnets</p>			
<u>Signaller</u>	To detect pigs passing through fixed and arbitrary points in different classes, welding and flange mounting, equipped with Valve and electric switch	IGS-E-PL-31 ASME SEC VIII ANSI B16.5 NACE MR0175/ISO15156	150 to 2500	
<u>Locator</u>	To track & locate pig within pipelines.	IPS-M-PI-0170	Not included	
<u>Repair Sleeve</u>	To strengthen pipelines in weak spots	ANSI B-31.3 & B31.4 & B31.8	150 to 1500	
<u>Split Sleeve</u>	To block all types of leaks and fix leaks in various pressure classes	ANSI B-31.3 & B31.4 & B31.8 API 6H NACE MR0175/ISO15156 ASME SEC VIII	150 to 1500	
<u>Sole mate</u>	To block all types of leaks and fix leaks in various pressure classes			
<u>Craft Clamp</u>	To block all types of leaks and fix leaks in various pressure classes			
<u>Weld Ends</u>	For safety coupling of two pipelines without any prior preparation (in different pressure classes)			
<u>Special Repair Products</u>	To prevent leakage in specific locations (tees, valves, pinholes, etc.)		150 to 1500
